PERSONAL PROJECT HIGHLIGHTS

I practiced and created some projects by utilizing Python, Django, and also Handled the development and management of front end user interfaces with help of HTML, CSS, and JavaScript. I have listed some of the projects in my github as well as Resolved ongoing problems and accurately documented the progress of those projects. all the codes of all projects are uploaded to the GitHub at "<https://github.com/unity1s>"

1. 'SocialME' Django Project

- This social web app can unite people with common interests. Users can create and publish text .people can share their hobbies and related experiences on such platforms.
- they can signup and then log in with their 'handle_username'. After logging to their account, the user can post any text content of their liking in interested groups, and also users can create a group of their interest. Other users can also join the group.
- Users can see all the posts of theirs as well as posts of other users by clicking on respective handle_username. I have deployed this project on the below mentioned URL path "<http://satish17.pythonanywhere.com> "

CERTIFICATIONS AND AFFILIATIONS

- Successfully completed **Python and Django Full Stack Web Developer Bootcamp** (including HTML, CSS, JavaScript, python, Django, bootstrap and GitHub).
- Oracle Certified Professional, Java SE 6 Programmer.
